Summary

A full-stack web-developer with a background in Japanese and English, excited to join a team that fosters a culture of hard work and personal growth. Dedicated to putting 112% effort into each project and focusing on creating a seamless, enjoyable, bug-free user experience. Known among past employers for open and honest communication with team members, and a willingness to work on a problem until a solution is reached.

Technical Skills

Proficient Languages: React, MongoDB (Mongoose), MySQL (Sql), Handlebars, Pug, CSS FlexBox, Semantic UI React, jQuery, Webpack, IndexedDB

Additional Skills: Japanese Language (JLPT Level 2)

Projects

My Shelf | A full-stack app using the Google Books API which allows an authenticated user to search for a book, add it to their list, and check it off when finished.

Github: <https://github.com/BestBroBradley/my-shelf>

Deployed link: <https://bbb-my-shelf.herokuapp.com>

Primary duties: Created entire app

Technologies used: React, Semantic UI, JavaScript, MongoDB, user authentication, BCrypt

Tabletop Tap | A business website for a local Denver Taproom with a database including business details, beer selection and board game selection and admin permissions.

Github: <https://github.com/BestBroBradley/tabletop-tap>

Deployed link: <https://sheltered-falls-54052.herokuapp.com>

Primary duties: Built out the majority of the front-end user interface and styling

Technologies used: JavaScript, MongoDB, CSS, Pug, Materialize

Budget Buddy | A budget-management app that uses the Yelp API to search for local restaurants and detract average amount spent at that location from a user-selected budget.

Github: <https://github.com/kyleawkjell/Project-1>

Deployed link: <https://kyleawkjell.github.io/Project-1/>

Primary duties: Implemented the restaurant search feature and connected to the Yelp API

Technologies used: Javascript, jQuery, Google Maps API, Yelp API

Experience

Instructor 2019
MEXT English Summer Camp Denver, CO

Collaborated with other instructional team members to develop curriculum for Japanese speakers of English in the US. Independently developed and implemented lesson plans in the classroom. Chaperoned students through their initial week in Denver.

Credentialing Specialist 2019
Freedom Healthcare Staffing Aurora, CO

Remotely ushered contract nurses through the staffing process, verifying documentation and organizing medical tests. Was responsible for keeping track of several nurses at once, with varying start dates and varying positional requirements. Helped usher the credentialing staff through a software transition encompassing the company's entire staffing database.

Legal Assistant 2017-2018
Kurtz & Peckham, PC Denver, CO

Oversaw day-to-day operations of office. Functioned as first contact for clients, scheduled appointments, drafted court documents, managed case timelines. Contacted courts and schedule appearances. Oversaw email marketing development and deployment. Was responsible for digitizing analog files and organizing file database.

Assistant Language Teacher 2013-2016
JET Program - Kurobe Board of Education Kurobe City, Japan

Collaborated with co-teachers to develop and implement lesson plans and materials. Worked on international relations within the Japanese community. Taught lessons on curriculum development to fellow teachers. Lived independently within rural community.

Education

Bootcamp Certificate: University of Denver, Denver, CO

A 24-week intensive program focused on gaining technical programming skills in HTML5, CSS3, Javascript, JQuery, Bootstrap, Firebase, Node Js, MySQL, MongoDB, Express, Handelbars.js & ReactJS.

Bachelors Degree: University of Colorado, Boulder, CO
Japanese and English Literature
