Profile

Recent graduate from a full-stack coding program at the University of Denver, with an aptitude for front-end development, particularly applications that use React for dynamic rendering. Looking for a developer position on a friendly and focused team that will allow me to grow and learn.

Experience

MEXT Summer Camp - Denver, CO — 2019
Instructor
Was responsible for designing and implementing one week of curriculum for a group of Japanese teachers of English at the University of Denver. Responsible for acclimating the recently-arrived teachers to life in Denver, and introducing them to the practicalities of thriving in a foreign country.

Freedom Healthcare Staffing - Denver, CO - 2019
Credentialing Specialist
Compiled certification documents for contract health professionals and tracked the expiration of those documents through the company database. Helped transition the company from one database management system to another, frequently educating other staff members on the new system.

JET Program- Kurobe City, Toyama, Japan - 2013-2016
Assistant Language Teacher
Alongside a Japanese teacher of English, developed and taught English lessons for Japanese students ranging in age from 6-15 years old while improving my fluency in Japanese. Additionally demonstrated my lessons to other regional teachers during curriculum exchange activities, and functioned as a public liaison between the local community and the American community in Japan.

Education

University of Denver, Denver, CO — Coding Bootcamp, 2020

University of Colorado, Boulder, CO — Japanese and English Literature, 2012
